

DECOKRIL RAPID

**Water-based pigmented primer for all types of masonry substrates.
Suitable even on fresh concrete and mortar.**

Features:

- ✓ **Excellent adhesion to concrete, adhesion promoter.**
- ✓ **Resistant to efflorescence.**
- ✓ **Excellent water resistance.**
- ✓ **Good resistance to UV rays.**
- ✓ **Exterior and interior.**
- ✓ **Environmentally friendly.**
- ✓ **Solvent-free.**
- ✓ **Ready-to-use product - Do not dilute.**

Primer for fresh concrete or mortar: It improves the adhesion of the subsequent layers with high resistance to alkalis and efflorescence, for indoor and outdoor uses.

It is ideal as a waterproofing sealant for basements and as a primer for fibrocement.

Benefits of applying DECOKRIL RAPID?

- ✓ **Preparation of calcareous surfaces (surface conditioner)**
- ✓ **Provide a solid base for masonry painting (adhesion)**
- ✓ **Seal the surface:**
 - **Providing an uniform porosity which prevents the cracking.**
 - **Blocking alkali and efflorescence from the substrate.**
- ✓ **To prevent common masonry coating defects: blistering, flaking, cracking, peeling, efflorescence.**
